1 GYEONGBOKGUNG PALACE 경복궁

The first royal palace built in the Joseon Dynasty is where the 500-year history of Joseon began. The largest of the five grand palaces remaining in Seoul, Gyeongbokgung Palace showcases Joseon's royal culture, palace life, and architect through Geunjeongjeon Hall, Gyeonghoeru Pavilion, and other structures. The National Palace Museum of Korea and National Folk Museum of Korea are nearby, offering opportunities to learn more about royal culture and historical living environments.

2 DEOKSUGUNG PALACE 덕수궁

This palace of the Joseon Dynasty became the site for the historic establishment of the Great Korean Empire. It is the only palace in Seoul that has a modern building, a Western-style garden, and a fountain. The Palace Royal Guard Changing Ceremony held every day at the main gate is a must-see attraction. The Deoksugung stonewall walkway that runs along the border of Deoksugung Palace has been selected as one of the 100 Most Beautiful Roads in Korea, giving it a different feeling throughout each of the four seasons.

3 CHANGDEOKGUNG PALACE 창덕궁

This UNESCO World Heritage site is the best-preserved palace of the Joseon Dynasty. Built in 1405, Changdeokgung Palace boasts picturesque scenery as the palace where the kings of the Joseon Dynasty spent the most time. Since Secret Garden of Changdeokgung Palace is available only to select visitors, a separate fee must be paid aside from the fee for the palace tour. Visiting hours and the number of people allowed to enter for each time are also limited, so please check the website for information on the Secret Garden tour.

4 CHANGGYEONGGUNG PALACE 창경궁

This palace was built by King Seongjong, the ninth king of the Joseon Dynasty, for Queen Jeonghui, the wife of King Sejo, Queen Ansun, the wife of King Yejong, and Queen Sohye, the wife of Prince Deokjong. Connected to Changdeokgung Palace, it formed a single palace called Donggung, and served to make up for the shortage of living space in Changdeokgung. The outstanding architectural beauty of the time is demonstrated through Honghwamun Gate, the main gate of Changgyeonggung. Korea's first Western-style greenhouse, completed in 1909, can also be seen here.

A traditional Korean drink prepared by boiling cinnamon and ginger in water and sweetening with sugar or honey. The spiciness of cinnamon and ginger and the sweetness of sugar give a refreshing balance.

Makgeolli (Rice Wine)

A uniquely Korean alcoholic beverage made by steaming glutinous rice, non-glutinous rice, barley, and wheat flour and mixing it with "nuruk" yeast base and water for fermentation. Different types have different flavors, but in general, makgeolli has a somewhat sour and nutty flavor.

Yuja-cha (Citron Tea)

A Korean tea made from thinly sliced citron preserved in sugar and brewed in boiling water. It has a sweet and tart flavor.

Soju

This alcoholic beverage distilled by fermenting grain is the most popular alcoholic drink in Korea. Most of the major soju brands come in a green bottle and have a strong alcohol flavor. Sweet fruit-flavored soju is also available for those who don't like the alcohol flavor.

Sikhhye (Sweet Rice Punch)

A traditional Korean drink with suspended grains of rice. It is a cold drink with a sweet flavor, made from rice fermented in malt.

Maekju (Beer)

You would be amiss if you did not have beer with your fried chicken. A cool glass of beer gives a tangy, refreshing, nutty flavor.
